

Program December 3-4, 2021

**Florida Academy of Pain Medicine (FAPM)
American Academy of Regenerative Orthopedic Medicine (AAROM)
with pre-conference workshops**

8 Hour CME Workshops Available, Friday, December 3rd
8 Hour CME Conference, Saturday, December 4th
4 Hour CME Online

Total of 20 CME Hours Available

PRE- CONFERENCE WORKSHOPS

Friday, December 3, 2021

8:00 a.m. – 5:00 p.m. (8 hours of CME)

Workshops run concurrently so chose one.

Workshop A: Interventional Minimally invasive interventional techniques: SIJ Fusion, Lumbar Facet Fusion, Peripheral nerve blocks in conjunction with peripheral nerve stimulation, Faculty: Abraham Rivera, MD., Raul Monzon, MD. Jose Medina Sanchez, MD

Workshop B:

Regenerative Injection Therapy and Ultrasound MSK Workshop with Ultrasound Guided Interventional Procedures.

(Participants scan each other, faculty demonstrates injections on patients; for scanning hips on each other participants need to wear high cut briefs).

Faculty: Felix Linetsky, MD, Alfredo Ferreyra RDMS, ASAR, Charlie Mahl, MD.FACS FICS,

Receive Hands-On Ultrasound Guidance Training on These Regions: Glenohumeral and knee joint (menisci, patellar & quadriceps tendons), Femoroacetabular joint, greater trochanter (gluteus medius & minimus tendons), Observe cervical medial branch blocs, Z joint and costotransverse joint injections and much more. Learn how to integrate ultrasound into your practice.

Workshop C:

What can I take home and apply Monday morning?

8:00 AM – 6:00 PM

This year our workshop will include hands on demonstrations, as well as science discussions, that will update our audience on information that can be applied on our first day back to work following this conference.

We will have an updated symposium on:

1. COVID-19

1. What is happening currently with this disease,
 2. Painful associations to COVID
 3. understanding the foundation of how vaccines work, what they can and can't do
 4. learn the pharmacology of issues that have been in the media and medical literature regarding alternative treatments
 5. how to avoid hospitalizations
 6. learn the foundation for photodynamic treatments, both for active cases and for prophylaxis
 7. what are the economic impacts of COVID on American and world economies
 8. what are the social and psychiatric impacts of COVID-19
 9. what variants are here and what are anticipated
 10. how to help ourselves and our patients deal with the fear associated with COVID-19
2. Neuropathic pain
 1. What are current treatments and how efficacious are they
 2. The role of newer treatments, such as capsaicin patches: what's available and what's in the near future
 3. The role of photodynamic therapy in neuropathic pain
 3. Rehabbing from diseases such as COVID and Neuropathic pain
 1. The role of mindfulness techniques
 2. The role of movement techniques
 3. The role of physicians in helping our patients
 4. The role of oxidative redox stress and imbalance in creating and rehabbing from illnesses
 5. The role of nutrition in helping rehab efforts
 6. The role of medical cannabis
 7. The role of vagal nerve stimulation: electrical or mechanical

Invited Faculty will include: Albert Ray, MD, workshop moderator; Ken Finn, MD; Mike Boehmer, RPh; Peter Staats, MD; Salaheldin Halasa, MD.

**Annual Meeting Lecture Series
Saturday December 4, 2021**

7:00 – 7:45	Registration & Breakfast in the Exhibit Hall
7:45 – 8:00	Welcome: Chung Lee, MD, President FAPM; Felix Linetsky, President AAROM.
8:00 – 8:45	Novel Proven Strategies for Treating Complex Pain; Peter Staats MD
8:45 – 9:30	What is new in spinal cord stimulation systems Focal Neuropathic Pain, What System to Choose? Diabetic Neuropathy new advancements. Dennis Patin MD

9:30 – 10:15	Incorporating peripheral nerve stimulation in your practice. Dr. Maged Hamza, MD
10:15 – 10:30	Break - Exhibit Hall
10:30 - 11:15	Sacroiliac Joint fusion, Dr. Jose Medina Sanchez, MD
11:15 - 12:15	Discussion of the Orthobiologics injections: PRP; Bone Marrow/Adipose aspirates; Allogenic birth tissues. Charlie Mahl, MD.FACS FICS
12:15 – 1:15pm	Luncheon & Presentation speaker & FAPM Annual Business Meeting FMA President Elect, Dr. Joshua Lenchus, to speak
1:15 – 2:15	Is Pain Objective? Albert Ray, MD
2:15 – 3:15	Selective Clinical Anatomy for Pain Treatment with RIT Felix Linetsky MD
3:15 - 3:30	Exhibit Hall Break
3:30 – 4:30	Interventional Minimally invasive interventional techniques. SIJ Fusion, Endoscopic Discectomy, Peripheral nerve blocks in conjunction with peripheral nerve stimulation, Diagnostic Knee Arthroscopy. – Abraham Rivera, MD.
4:30 – 5:15	Photodynamic Therapy in Pain Treatment (Lasers) Dr. Jennifer Miele

Zoom/Virtual portion of the Meeting

Hour 1	Intrathecal therapy, how to incorporate this modality into your practice DR. RIVERA
Hour 2	An update on medical marijuana. Ken Finn, MD.
Hour 3	History of Regenerative and Injection Theory, Felix Linetsky MD
Hour 4	Improving Best Practices for Patient Care: Optimizing the Use of the PDMP Database. Florida PDMP Foundation
